- AI in Design Workflows:** Figma AI and ChatGPT for rapid ideation, wireframing, UX writing/microcopy, and design exploration
- Visual Design:** Typography, color systems, spacing, visual hierarchy, brand identity
- Collaboration & Handoff:** Stakeholder collaboration, product teams, developers, design discussions, feedback and design iteration
- Design Tools:** Figma, Adobe Illustrator, Photoshop, InDesign, After Effects, Framer
- Web Fundamentals:** Basic HTML/CSS and JavaScript knowledge

PROFESSIONAL EXPERIENCE

- Freelance UI/UX Designer** | Rachmanas

Oct 2025 - December 2025

 - Designed the complete website interface and user experience for Rachmanas, ensuring a cohesive and user-friendly design.
 - Collaborated closely with the founder to define user flows and visual direction, ensuring consistent brand and UX alignment.
 - Developed a custom design system to maintain consistency across digital assets.
 - Created brand guidelines defining typography, color palette, and visual language to align the website with the brand identity.
 - Delivered responsive, accessible layouts optimized for both desktop and mobile.
- Graphic Designer** | Taazaa Inc

Jan 2023 - Oct 2025

 - Created digital visual assets and UI elements for web and mobile products, translating complex requirements into clear and engaging user experiences.
 - Designed interface layouts, screens, visual components, and supporting graphics while maintaining consistency across digital products.

- Collaborated with product, engineering, and content teams to understand requirements and translate them into polished visual and UI solutions.
- Applied typography, color, spacing, visual hierarchy, and responsive design principles across product interfaces and digital experiences.
- Supported UI/UX design activities including wireframing, screen design, visual refinement, and design iterations based on stakeholder feedback.

Graphic Designer | Think Exam – A Ginger Webs Company

Jan 2022 – July 2022

- Designed marketing creatives, branding assets, digital campaigns, and communication materials for an education-focused business.
- Created visual assets for web and learning platforms while following brand guidelines and campaign objectives.
- Developed concepts and design variations for promotional and marketing requirements across multiple formats.
- Collaborated with internal teams to translate content and requirements into clear, engaging visual communication.

Freelance Graphic Designer | PustakRatna Prakashan

Apr 2020 – Dec 2021

- Designed book covers, editorial layouts, print publications, and other print collateral from concept through final artwork.
- Established consistent visual identity standards for a publication series, improving brand cohesion across editorial products.
- Handled typography, composition, image selection, colour, layout, and print-ready file preparation.
- Reviewed artwork and final files for accuracy, consistency, and high-quality print output.
